Dear Mr. Kinnett:

On November 29 and 30, 2017, inspectors from the Virginia State Corporation Commission (VA-SCC), acting as Agent for the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of the City of Danville's procedures in Danville, VA. As a result of the inspection, the City of Danville was issued a Notice of Amendment on July 2, 2019, which proposed amendment of your procedures.

The City of Danville submitted its amended procedures on February 25, 2020. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough  
Director, Eastern Region  
Pipeline and Hazardous Materials Safety Administration
