Dear Ms. Harradence:

Between February 25, 2018 and June 15, 2018, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), and inspectors from the Connecticut Department of Energy & Environmental Protection (CT DEEP), and the New York State Department of Public Service (NYSDPS) acting as agents of PHMSA, pursuant to Chapter 601 of Title 49 of the United States Code performed an integrated inspection of Algonquin Gas Transmission, L.L.C. (AGT) pipeline system in Massachusetts, Rhode Island, Connecticut, New York and New Jersey. As a result of the inspection, AGT was issued a Notice of Amendment on January 31, 2019, which proposed amendments to its procedures.

On February 28, 2019, AGT submitted its amended procedures. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
