Dear Mr. Chapman:

From January 29, 2018 to September 14, 2018, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Columbia Gas Transmission, LLC's (Columbia) procedures for operation and maintenance of its natural gas transmission pipeline system in West Virginia and Kentucky. As a result of the inspection, Columbia was issued a Notice of Amendment on January 17, 2019 (Notice).

Columbia responded on March 8, 2019, and submitted amended procedures and supporting forms to ensure compliance with the terms of the Notice. Based on our review of the documentation, it appears that the inadequacy outlined in this Notice has been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
