Dear Mr. Sheppard:

On October 16 – 18, 2018, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Dominion Energy Transmission, Inc.'s (Dominion) procedures in Loudoun County, Virginia. As a result of the inspection, Dominion was issued a Notice of Amendment on July 22, 2019, which proposed amendment of your procedures.

Dominion submitted its amended procedures on August 16, 2019. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

A handwritten signature in blue ink, appearing to read "Robert Burrough".

Director, Eastern Region  
Pipeline and Hazardous Materials Safety Administration
