Dear Ms. Harradence:

On October 16 – October 20, 2017, and May 15-17, 2018, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Algonquin Gas Transmission, LLC's (Algonquin's) procedures in Waltham, Massachusetts. As a result of the inspection, Algonquin was issued a Notice of Amendment on August 12, 2019, which proposed amendment of your procedures.

Algonquin submitted its amended procedures on September 10, 2019. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
