Dear Mr. Marone:

On April 24 to April 30, 2018, an inspector from the Connecticut Department of Energy and Environmental Protection (CT DEEP), acting as Agent for Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), pursuant to Chapter 601 of Title 49 of the United States Code inspected Total Peaking Services' (TPS) records and procedures for its LNG plant in Bridgeport, Connecticut. TPS is a wholly-owned subsidiary of United Resources, Inc., which was a subsidiary of UIL Holdings Corporation acquired by Avangrid.

TPS submitted its amended procedures on May 1, 2019. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
