Dear Mr. LeBlanc:

From March 20 to May 24, 2018, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), pursuant to Chapter 601 of Title 49 of the United States Code, inspected EnLink LBU-ORV's (EnLink's) procedures for operation and maintenance of its crude oil pipeline system in the vicinity of Nashport, Ohio.

As a result of the inspection, EnLink was issued a Notice of Amendment (NOA) on January 8, 2019. On February 27, 2019, EnLink responded to the NOA and submitted documentation showing it took certain actions to ensure compliance with the terms of the Notice.

Based on our review of the documentation, it appears that the inadequacies outlined in this NOA have been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
