Dear Mr. Jessee:

From July 22-25, 2019, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code (U.S.C.) inspected Louisville Gas & Electric Company's (LG&E) procedures for Underground Natural Gas Storage in Louisville, Kentucky. As a result of the inspection, LG&E was issued a Notice of Amendment on March 13, 2020, which proposed amendment of your procedures.

LG&E submitted its amended procedures on or about April 14, 2020. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough  
Director, Eastern Region  
Pipeline and Hazardous Materials Safety Administration
