Dear Mr. Hartz:

On August 5 - 15, 2019, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of UGI Energy Service's (UGI) procedures in Meshoppen, Allentown, and Mansfield, Pennsylvania. As a result of the inspection, UGI was issued a Notice of Amendment on July 16, 2020, which proposed amendment of your procedures.

UGI submitted its amended procedures on or about August 17, 2020. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
