

OVERNIGHT EXPRESS DELIVERY

December 10, 2021

Mr. Mark Cluff
Vice President, Safety & Operational Discipline
Transcontinental Gas Pipeline Company, LLC
One Williams Center
P.O. Box 645
Tulsa, OK 74172

CPF 1-2021-014-NOA

Dear Mr. Cluff:

From October 19, 2021 through November 4, 2021, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Transcontinental Gas Pipeline Company's (Transco) procedures for its Station 240 LNG plant in Carlstadt, New Jersey. As a result of the inspection, Transco was issued a Notice of Amendment (NOA) on April 14, 2021, which proposed amendment of your procedures. Transco requested a 60-day time extension for its response on May 13, 2021. On May 20, 2021, PHMSA granted this time extension for Transco to provide its written response by July 19, 2021. Transco submitted its amended procedures on July 16, 2021. On October 5, 2021 and November 5, 2021 PHMSA held meetings to address its questions and concerns with Transco regarding the inadequacies identified in the amended procedures. Transco re-submitted its amended procedures on November 11, 2021. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
