CONFIRMATION OF RECEIPT REQUESTED
In the Matter of

National Fuel Gas Supply Corporation, a subsidiary of National Fuel Gas Company,

Respondent.

CPF No. 1-2021-057-NOPV

FINAL ORDER

On October 7, 2021, pursuant to 49 C.F.R. § 190.207, the Director, Eastern Region, Office of Pipeline Safety (OPS), issued a Notice of Probable Violation (Notice) to National Fuel Gas Supply Corporation (NFG or Respondent), a subsidiary of National Fuel Gas Company.¹ The Notice proposed finding that Respondent had violated the pipeline safety regulations in 49 C.F.R. § 192.167(a)(4). The Notice also proposed certain measures to correct the violation. NFG did not contest the allegation of violation or corrective measures.

Based upon a review of all of the evidence, pursuant to § 190.213, I find Respondent violated the pipeline safety regulations listed below, as more fully described in the enclosed Notice, which is incorporated by reference:

49 C.F.R. § 192.167(a)(4) (Item 1) — Respondent failed to install an emergency shutdown system for its attended compressor station that is operable from at least two locations outside the gas area of the station, near the exit gates of the fenced station, and not more than 500 feet from the limits of the station.

This finding of violation will be considered a prior offense in any subsequent enforcement action taken against Respondent.

COMPLIANCE ACTIONS

Pursuant to 49 U.S.C. § 60118(b) and 49 C.F.R. § 190.217, Respondent is ordered to take the actions proposed in the enclosed Notice to correct the violation. The Director may grant an

extension of time to comply with any of the required items upon a written request timely submitted by the Respondent and demonstrating good cause for an extension. Upon completion of ordered actions, Respondent may request that the Director close the case. Failure to comply with this Order may result in the assessment of civil penalties under 49 C.F.R. § 190.223 or in referral to the Attorney General for appropriate relief in a district court of the United States.

**WARNING ITEM**

With respect to Item 2, the Notice alleged a probable violation of 49 C.F.R. § 192.745(a), but did not propose a civil penalty or compliance order for this item. Therefore, this is considered a warning item. If OPS finds a violation of this provision in a subsequent inspection, Respondent may be subject to future enforcement action.

The terms and conditions of this order are effective upon service in accordance with 49 C.F.R. § 190.5.
