Dear Mr. Drury:

From October 11 through 15, 2021 an inspector from the California Geologic Energy Management Division (CalGEM), acting as an agent for the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code (U.S.C.) inspected Southern California Gas Company's (SCG) procedures for its Aliso Canyon, Honor Rancho, and Playa Del Rey Underground Natural Gas Storage Facilities (UNGSF) located in Los Angeles County, California and its La Goleta UNGSF located in Santa Barbara County, California. As a result of the inspection, SCG was issued a Notice of Amendment on May 10, 2022, which proposed amendment of your procedures.

SCG submitted its amended procedures on June 15, 2022. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
