Dear Mr. Martin:

From November 15, 2021 to November 19, 2021, and February 15, 2022 to February 16, 2022, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Century Aluminum's procedures in Hopkins, KY. As a result of the inspection, Century Aluminum was issued a Notice of Amendment on August 18, 2022, which proposed amendment of your procedures.

Century Aluminum submitted its amended procedures on September 21, 2022. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
