RE: CPF No. 2-2004-6012

Dear Mr. Jacoby:

Enclosed is the Final Order issued by the Associate Administrator for Pipeline Safety in the above-referenced case. It makes a finding of violation and finds that you have completed the actions specified in the Notice required to comply with the pipeline safety regulations. This case is now closed. Your receipt of the Final Order constitutes service of that document under 49 C.F.R. § 190.5.

Sincerely,

James Reynolds
Pipeline Compliance Registry
Office of Pipeline Safety

cc: Ms. Linda Daugherty, Director, OPS Southern Region

In the Matter of

PREMCOR REFINING GROUP, INC.

Respondent

CPF No. 2-2004-6012

FINAL ORDER

On April 21 and 22, 2004 pursuant to 49 U.S.C. § 60117, representatives of the Central and Southern Regions, Office of Pipeline Safety (OPS), conducted an inspection of Respondent's Operator Qualification Plan at its Memphis, Tennessee Truck Terminal. As a result of this investigation, the Director, Southern Region, OPS, issued to Respondent, by letter dated September 22, 2004, a Notice of Probable Violation and Proposed Compliance Order (Notice). In accordance with 49 C.F.R. § 190.207, the Notice proposed finding that Respondent had violated 49 C.F.R. § 195.505 and proposed that Respondent take certain measures to correct the alleged violations.¹

Respondent responded to the Notice by letter dated, October 18, 2004 (Response). Respondent did not contest the allegation of violation but provided information concerning the corrective actions it has taken. Respondent did not request a hearing, and therefore has waived its right to one.

FINDINGS OF VIOLATION

In its Response, Respondent did not contest the alleged violation of 49 C.F.R. § 195.505 in the Notice. Accordingly, I find that Respondent violated 49 C.F.R. Part 195, as more fully described in the Notice:

49 C.F.R. § 195.505(a) and (c)--failing to adequately prepare and follow a written qualification program, as Respondent failed to include provisions to define the number of persons, and under what conditions, a qualified person can direct and observe non-qualified persons. Also, Respondent failed to include "excavation" as a covered tasks.

¹This case, however, is no longer before RSPA for decision. Effective February 20, 2005, the Pipeline and Hazardous Materials Safety Administration (PHMSA) was created to further the highest degree of safety in pipeline transportation and hazardous materials transportation. See, section 108 of the Norman Y. Mineta Research and Special Programs Improvement Act (Public Law 108-426, 118 Stat. 2423-2429 (November 30, 2004)). See also, 70 Fed. Reg. 8299 (February 18, 2005) re delegating the pipeline safety functions to the Administrator, PHMSA.
