November 23, 2010

Mr. Wayne T. Lemoi, Director
Southern Region Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
233 Peachtree Street Suite 600
Atlanta, GA 30303

RE: Response to Notice of Proposed Safety Order Letter

Dear Mr. Lemoi:

We have received your Notice of Proposed Safety Order (CPF 2-2010-0001S) for the City of Moss Point's Natural Gas Distribution System. The City of Moss Point intends to fully comply with § 190.239 and would like to request an informal consultation to discuss the details of the Moss Point Natural Gas Distribution System and your concerns listed as proposed corrective measures for CPF 2-2010-0001S. In the event the City of Moss Point and the Pipeline and Hazardous Materials Safety Administration cannot come to an agreement regarding the Consent Order Moss Point would like to exercise its right to request an administrative hearing. Our office has been in contact with the Public Service Commission over the past couple of months as it relates to our Natural Gas System and the City Leadership has begun to take the necessary steps to correct many of the concerns outlined in the corrective measures section of CPF 2-2010-0001S. We look forward in meeting with your office to discuss the details of our Natural Gas System and the plans moving forward to correct these issues.

Sincerely,

ANEICE R. LIDDELL, Mayor
