CONSENT ORDER

By letter dated September 20, 2010 the Pipeline and Hazardous Materials Safety Administration (PHMSA) Office of Pipeline Safety issued a Notice of Proposed Safety Order (Notice) to Columbia Gas Transmission LLC (Respondent) in this case.

In accordance with 49 C.F.R. § 190.239, the Notice alleged that Respondent’s 20-inch natural gas “Line P” pipeline or portion thereof has an apparent condition that, without corrective measures, would pose a pipeline integrity risk to public safety, property, or the environment and proposed that Respondent take certain actions to address the condition. Specifically, the Notice alleged that the conditions associated with a September 9, 2010 rupture that occurred on a section of approximately 10 miles of bare cathodically unprotected pipe located in Lawrence County, Kentucky required corrective measures to ensure safety.

In response to the Notice, Respondent requested an informal consultation and Respondent and PHMSA engaged in good faith settlement discussions resulting in the Consent Agreement attached to this Order that settles all of the allegations in the Notice.

Accordingly, the foregoing Consent Agreement is herby approved and incorporated by reference into this Order. The Respondent is hereby ordered to comply with terms of the Consent Agreement, effective immediately.

Pursuant to 49 U.S.C. 60101 et seq. and 49 C.F.R. § 190.221, failure to comply with this Consent Order may result in the assessment of civil penalties of up to $100,000 per violation per day, or in the referral of the case for judicial enforcement. The terms and conditions of this Consent Order are effective upon service in accordance with 49 C.F.R. § 190.5.
