CPF 2-2010-5003M

Dear Mr. Bodenhamer:

On January 31, 2011, the Pipeline and Hazardous Materials Safety Administration (PHMSA) issued to Dixie Pipeline Company (Dixie) an Order Directing Amendment (Order), which required Dixie to amend certain procedures.

Dixie submitted its amended procedures on March 25, 2011, and then modified its response on March 31, 2011, after a discussion with a PHMSA senior engineer. We have reviewed the amended procedures and have determined that Dixie has complied with the terms of the Order. No further action is necessary with regards to the Order and this case is now closed.

Please be advised that this letter refers only to CPF 2-2010-5003M and not to any other PHMSA pending cases. Also be advised that nothing herein states or implies that the Dixie Pipeline Company pipeline system meets the requirements of the federal pipeline safety laws or regulations. The pipeline system remains subject to inspection by PHMSA.

Sincerely,

Wayne P. Lemoie
Director, PHMSA Southern Region
Office of Pipeline Safety
