Dear Mr. Webber:

On September 12-15, 2011, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), Southern Region inspected the Florida Public Utilities (FPU) written procedures for Operations and Maintenance (O&M) in Winter Haven, Florida, pursuant to Chapter 601 of 49 United States Code. As a result of the inspection, PHMSA issued a Notice of Amendment (NOA) on October 12, 2011.

FPU responded to the NOA in a letter dated November 4, 2011. The PHMSA Southern Region reviewed the written response and subsequently held conversations with FPU personnel. As a result, we find FPU's response adequate. Therefore, this letter is to inform you that FPU has complied with the terms of the NOA and that no further action is necessary with regards to the NOA. This case is now closed.

Please be advised that this letter refers only to the NOA (re: **CPF 2-2011-0007M**) and not to any other PHMSA pending cases. Also be advised that nothing herein states or implies that the above described O&M meets the requirements of the federal pipeline safety regulations or that the O&M is approved. The pipeline system and O&M remain subject to inspection by PHMSA.

Sincerely,

Wayne T. Lemoi
Director, Office of Pipeline Safety
PHMSA Southern Region
