Dear Mr. Pankhurst:

On September 12-16, 2011, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) inspected the Destin Pipeline Company, LLC (Destin) Operations, Maintenance and Emergency Manual (OMER) written procedures in Moss Point, Mississippi, pursuant to Chapter 601 of 49 United States Code. As a result of the inspection, PHMSA issued a Notice of Amendment (NOA) to Destin on January 12, 2012.

The PHMSA Southern Region received your response to the NOA on February 17, 2012. Upon review of your response to the NOA, we requested, by email dated February 21, 2012, that additional revisions to two *Job Plan Details* be made as relates to NOA Item Number 2.

In response to the February 21, 2012 request, we received (and have reviewed) from Destin by email dated February 28, 2012, two revised *Job Plan Details*.

This letter is to inform you that Destin has complied with the terms of the NOA and that no further action is necessary with regards to the NOA. This case is now closed.

Please be advised that this letter refers only to the NOA (CPF 2-2012-1002M) and not to any other PHMSA pending cases.

Sincerely,

Wayne T. Lemoie
Director, Office of Pipeline Safety
PHMSA Southern Region
