**CPF 2-2012-5010M**

Dear Mr. Giglotto:

From June 4-5, 2012, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Southern Region, Office of Pipeline Safety inspected the Hunt Crude Oil Supply Company (Hunt) written Public Awareness Program at your Tuscaloosa, Alabama, refinery office pursuant to Chapter 601 of 49 United States Code. As a result of the inspection, PHMSA issued a Notice of Amendment (NOA) on July 25, 2012.

On September 6, 2012, Hunt sent an email to the Southern Region requesting a time extension to respond to the NOA. I granted an extension until October 31, 2012, via return email on the same day.

The PHMSA Southern Region received your written response to the NOA dated October 5, 2012. We reviewed the response and find that Hunt's amended procedures are adequate. This letter is to inform you that Hunt has complied with the terms of the NOA and that no further actions are necessary with regards to the NOA. This case is now closed.

Please be advised that this letter refers only to the NOA (**CPF 2-2012-5010M**) and not to any other PHMSA pending cases, if any. Also be advised that nothing herein states or implies that the Hunt Public Awareness Program meets the requirements of the federal pipeline safety regulations or that the Public Awareness Program is approved. The pipeline system and Public Awareness Program remain subject to inspection by PHMSA.

Sincerely,

Wayne T. Lemoine  
Director, Office of Pipeline Safety  
PHMSA Southern Region
