Dear Mr. Rose:

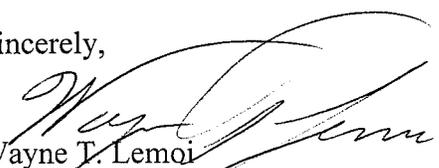

On June 11-12, 2012, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Southern Region, Office of Pipeline Safety inspected The Pipelines of Puerto Rico, Inc. (PLPR) written Public Awareness Plan at your San Juan, Puerto Rico office pursuant to Chapter 601 of 49 United States Code. As a result of the inspection, PHMSA issued a Notice of Amendment (NOA) on October 3, 2012.

The PHMSA Southern Region received an email response to the NOA from Luis Rodriguez, PLPR's General Manager, on November 1, 2012. We responded to that email in a letter dated December 19, 2012, in which we accepted PLPR's responses to items 1-3 of the NOA but we did not accept PLPR's response to item 4. We received a second email from Luis Rodriguez on January 2, 2013, with a modified response for item 4.

Upon review of the aforementioned correspondence, we find PLPR's amended procedures adequate. This letter is to inform you that PLPR has complied with the terms of the NOA and that no further action is necessary with regards to the NOA. This case is now closed.

Please be advised that this letter refers only to the NOA (**CPF 2-2012-6019M**) and not to any other PHMSA pending cases. Also be advised that nothing herein states or implies that the PLPR Public Awareness Program meets the requirements of the federal pipeline safety regulations or that the Public Awareness Program is approved. The pipeline system and Public Awareness Program remain subject to inspection by PHMSA.

Sincerely,

  
Wayne T. Lemoie  
Director, Office of Pipeline Safety  
PHMSA Southern Region
