Dear Mr. Teague:

On August 18-20, 2015, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), Southern Region inspected the Enterprise Products Operating, LLC (Enterprise) Operator Qualification program in Houston, Texas, pursuant to Chapter 601 of 49 United States Code. As a result of the inspection, OPS issued to Enterprise a Final Order with a Compliance Order (CO) on February 27, 2017. The CO required Enterprise to undertake certain actions to ensure compliance with the federal pipeline safety regulations.

OPS Southern Region received documentation, dated February 28, 2018, confirming that the CO Items have been completed.

Based upon our review of the actions taken by Enterprise and the supporting documentation, we have determined that Enterprise has complied with the terms of the CO and the Final Order. This case is now closed and no further action is necessary with respect to the matters involved in this case.

Please be advised that this letter refers only to the referenced order (**CPF 2-2016-5002**) and not to any other PHMSA cases, if any.

Sincerely,

James A. Urisko
Director, Office of Pipeline Safety
PHMSA Southern Region
