CPF 2-2016-5003H

Dear Mr. Aydt:

On May 18, 2016, the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), issued an Amended Corrective Action Order (CAO) to Marathon Pipe Line, LLC (Marathon), relating to the April 17, 2016, release on Marathon's Robinson-Mt. Vernon 10-inch Products Pipeline in Wabash County, Illinois. The Amended CAO provided updated findings and revised the *Required Corrective Actions* of the original CAO, dated April 22, 2016.

OPS Southern Region received correspondence from Marathon dated July 6, 2017, regarding the above referenced Amended CAO. The correspondence included the CAO Documentation Report (CDR) required by the CAO, with the intent to summarize all activities and documentation associated with the CAO in support of closure.

OPS Southern Region has reviewed all the actions taken by Marathon with respect to the CAO and we find that Marathon has complied with its terms. No further actions are necessary with regards to the CAO, and this case is now closed.

Please be advised that this letter refers only to the CAO (CPF 2-2016-5003H) and not to any other PHMSA pending cases, if any.

Sincerely,

James A. Urisko
Director, Office of Pipeline Safety
PHMSA Southern Region
