Dear Ms. Good:

Between July 31, 2017 and September 21, 2017, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), pursuant to Chapter 601 of 49 United States Code (U.S.C.) inspected Duke Energy Kentucky, Inc. (Duke) records in Duke's Cincinnati, Ohio and Erlanger, Kentucky offices. PHMSA personnel also inspected Duke facilities in Kenton County, Kentucky. As a result of the inspection, PHMSA issued a Notice of Amendment (NOA), dated May 15, 2018.

In response to the NOA, Duke made multiple submittals to OPS Southern Region, with a final written response dated October 15, 2018. OPS personnel conducted a follow-up conference call on October 24, 2019. Based on our review of these responses, we have determined that Duke has complied with the terms of the NOA. This case is now closed and no further action is necessary with respect to the matters involved in this case.

Please be advised that this letter refers only to the referenced NOA (CPF 2-2018-6003M) and not to any other PHMSA cases, if any.

Sincerely,

James A. Urisko  
Director, Office of Pipeline Safety  
PHMSA Southern Region
