**CPF 2-2019-3001**

Dear Ms. Dang:

On December 11, 2019, the Pipeline and Hazardous Materials Safety Administration, Office of Pipeline Safety (OPS), Southern Region issued a Notice of Probable Violation and Proposed Civil Penalty (Notice) for the case number referenced above to your subsidiary, Southern LNG Company (SLNG). The Notice cited SLNG for two alleged violations of 49 CFR Part 191 regarding failure to file an incident report and a safety-related condition report following an incident that occurred at SLNG's Elba Island liquefied natural gas facility in Savannah, Georgia on May 15, 2018 (Incident). The Notice proposed a civil penalty of \$55,200 for both items.

Upon further deliberation, OPS Southern Region has decided to withdraw the Notice until such time that it has completed its investigation of the Incident. This letter, thereby, informs you that PHMSA is withdrawing the Notice for CPF 2-2019-3001, without prejudice, and that the case is now closed. PHMSA retains its authority to continue its investigation of the Incident, and reserves its right to seek enforcement if necessary.

Sincerely,

James Urisko  
Director, Southern Region, OPS  
Pipeline and Hazardous Materials Safety Administration
