CERTIFIED MAIL - RETURN RECEIPT REQUESTED

December 21, 2007

Ms. Tamara Murray
President
Salmon Resources Ltd.
2450 Teller Street
Lakewood, CO 80214

CPF 3-2007-5033

Dear Ms. Murray:

On August 22-23 and November 7-8, 2006, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected your Integrity Management Program and your Operator Qualification Plan in Marysville, Michigan.

As a result of the inspection, it appears that you have committed probable violations of the Pipeline Safety Regulations, Title 49, Code of Federal Regulations. The items inspected and the probable violations are:

1. **§ 195.452 Pipeline integrity management in high consequence areas.**
 - (b) **What program and practices must operators use to manage pipeline integrity? Each operator of a pipeline covered by this section must:**
 - (1) **Develop a written integrity management program that addresses the risks on each segment of Category 2 pipeline not later than February 18, 2003.**

(2) Include in the program an identification of each Category 2 pipeline or pipeline segment not later than November 18, 2002.

Salmon Resources Ltd. missed prescriptive deadlines in the Integrity Management (IM) Rule regarding the development of an Integrity Management Program (IMP) that addresses the risks on each segment of Category 2 pipeline and the identification of segments that could affect a High Consequence Area (HCA) (not later than February 18, 2003 and November 18, 2002, respectively, for a Category 2 pipeline). Salmon Resources completed the original IMP and identification of pipeline segments that can affect an HCA per the IM Rule on Aug 1, 2006.

2. § 195.509 General

(a) Operators must have a written qualification program by April 27, 2001.

Salmon Resources Ltd. did not have a written operator qualification program by April 27, 2001. Salmon Resources has been operating the pipeline facility at Marysville, Michigan since 1988, but did not have a written operator qualification program until August 2006. Salmon Resources has been operating the pipeline facilities without an operator qualification program in violation of the regulation for more than 5 years.

3. § 195.509 General

(b) Operators must complete the qualification of individuals performing covered tasks by October 28, 2002.

Salmon Resources Ltd. did not complete the qualification of individuals performing covered tasks by October 28, 2002. Salmon Resources has not qualified any individuals to perform covered tasks on its pipeline facilities. Salmon Resources did not have a qualification program until August 2006, and evaluation of individuals began in October 2006. As of the inspection on November 8, 2006, Salmon Resources had not fully qualified any individuals under the program because the required documentation of the individuals being able to recognize and react to abnormal operating conditions had not been completed. Also, Salmon Resources had not performed a review of contractors and subcontractors to determine if those individuals are qualified. Accordingly, Salmon Resources has allowed covered tasks, such as patrolling, locating facilities, pigging, operating the line, operating valves and monitoring cathodic protection pipe-to-soil potentials, to be performed by individuals that were not qualified.

Proposed Civil Penalty

Under 49 United States Code, § 60122, you are subject to a civil penalty not to exceed \$100,000 for each violation for each day the violation persists up to a maximum of \$1,000,000 for any related series of violations. The Compliance Officer has reviewed the

circumstances and supporting documentation involved in the above probable violation(s) and has recommended that you be preliminarily assessed a civil penalty of \$ 42,000 as follows:

<u>Item number</u>	<u>PENALTY</u>
1	\$ 14,000
2	\$ 5,000
3	\$ 23,000

Proposed Compliance Order

With respect to item three pursuant to 49 United States Code § 60118, the Pipeline and Hazardous Materials Safety Administration proposes to issue a Compliance Order to Salmon Resources. Please refer to the *Proposed Compliance Order*, which is enclosed and made a part of this Notice.

Response to this Notice

Enclosed as part of this Notice is a document entitled *Response Options for Pipeline Operators in Compliance Proceedings*. Please refer to this document and note the response options. Be advised that all material you submit in response to this enforcement action is subject to being made publicly available. If you believe that any portion of your responsive material qualifies for confidential treatment under 5 U.S.C. 552(b), along with the complete original document you must provide a second copy of the document with the portions you believe qualify for confidential treatment redacted and an explanation of why you believe the redacted information qualifies for confidential treatment under 5 U.S.C. 552(b). If you do not respond within 30 days of receipt of this Notice, this constitutes a waiver of your right to contest the allegations in this Notice and authorizes the Associate Administrator for Pipeline Safety to find facts as alleged in this Notice without further notice to you and to issue a Final Order.

In your correspondence on this matter, please refer to **CPF 3-2007-5033** and for each document you submit, please provide a copy in electronic format whenever possible.

Sincerely,

Ivan A. Huntoon
Director, Central Region
Pipeline and Hazardous Materials Safety Administration

Enclosures: *Proposed Compliance Order*
Response Options for Pipeline Operators in Compliance Proceedings

PROPOSED COMPLIANCE ORDER

Pursuant to 49 United States Code § 60118, the Pipeline and Hazardous Materials Safety Administration (PHMSA) proposes to issue to Salmon Resources, LTD a Compliance Order incorporating the following remedial requirements to ensure the compliance of Salmon Resources Ltd. with the pipeline safety regulations:

1. In regard to Item Number 3 of the Notice pertaining to performing covered tasks without qualified individuals, Salmon Resources must qualify those individuals performing covered tasks according to an operator qualification program in compliance with CFR 49 Part 195 Subpart G.
2. In regard to Item Number 3 of the Notice pertaining to operator qualification, Salmon Resources Ltd. must send documentation of those qualified individuals including contractors and subcontractors to the Director – Central Region office at 901 Locust Street, Kansas City, MO 64106.
3. Salmon Resources Ltd. shall comply with the Proposed Compliance Order items 1 and 2 within 90 days after receiving the Final Order.
4. Salmon Resources Ltd. shall maintain documentation of the safety improvement costs associated with fulfilling this Compliance Order and submit the total to Ivan A. Huntoon, Director, Central Region, Pipeline and Hazardous Materials Safety Administration. Costs shall be reported in two categories: 1) total cost associated with preparation/revision of plans, procedures, studies and analyses, and 2) total cost associated with replacements, additions and other changes to pipeline infrastructure.

Response Options for Pipeline Operators in Compliance Proceedings

The requirements of 49 C.F.R. Part 190, Subpart B (§§ 190.201–190.237) govern response to Notices issued by a Regional Director, Pipeline and Hazardous Materials Safety Administration (PHMSA).

Be advised that all material submitted by a respondent in response to an enforcement action is subject to being made publicly available. If you believe that any portion of your responsive material qualifies for confidential treatment under 5 U.S.C. 552(b), along with the complete original document you must provide a second copy of the document with the portions you believe qualify for confidential treatment redacted and an explanation of why you believe the redacted information qualifies for confidential treatment under 5 U.S.C. 552(b).

I. Procedures for Responding to a NOTICE OF PROBABLE VIOLATION:

Within 30 days of receipt of a Notice of Probable Violation, the respondent shall respond to the Regional Director who issued the Notice in the following way:

a. When the Notice contains a proposed CIVIL PENALTY* --

1. Pay the proposed civil penalty and advise the Regional Director of the payment. This authorizes PHMSA to make findings and to close the case with prejudice to the respondent. Payment terms are outlined below;
2. Submit written explanations, information, or other materials in response to the allegations and/or seek elimination or mitigation of the proposed civil penalty. Refer to 49 C.F.R. § 190.225 for assessment considerations, which include the respondent's ability to pay and the effect on the respondent's ability to stay in business, upon which civil penalties are based; or
3. Request a hearing as described below to contest the allegations and/or proposed assessment of a civil penalty.

b. When the Notice contains a proposed COMPLIANCE ORDER* --

1. Notify the Regional Director that you intend to take the steps in the proposed compliance order;
2. Submit written explanations, information, or other materials in answer to the allegations in the Notice and object to or seek clarification of the proposed compliance order items in whole or in part; or
3. Request a hearing as described below to contest the allegations and/or proposed compliance order items;

c. When the Notice contains a **WARNING ITEM** --

No written response is required. The respondent is warned that if it does not take appropriate action to correct these items, enforcement action will be taken if a subsequent inspection reveals a violation.

* Failure of the respondent to respond to the Notice within 30 days of receipt constitutes a waiver of the right to contest the allegations in the Notice and authorizes the Associate Administrator for Pipeline Safety to find facts as alleged in the Notice without further notice to the respondent and to issue a Final Order.

II. **Procedures for Responding to a NOTICE OF AMENDMENT*--**

Within 30 days of receipt of a Notice of Amendment, the respondent shall respond to the Regional Director who issued the Notice in the following way:

- a. Notify the Regional Director of your plans to address the inadequacies identified in the Notice;
- b. Submit written explanations, information, or other materials in answer to the allegations in the Notice and/or object to or seek clarification of the proposed amendment items in whole or in part; or
- c. Request a hearing as described below to contest the allegations in the Notice.

* Failure of the respondent to respond to the Notice within 30 days of receipt constitutes a waiver of the right to contest the allegations in the Notice and authorizes the Associate Administrator for Pipeline Safety to find facts as alleged in the Notice without further notice to the respondent and to issue a Final Order.

III. **Procedure for Requesting a Hearing**

A request for a hearing must be in writing and accompanied by a statement of the issues that the respondent intends to raise at the hearing. The issues may relate to the allegations, new information, or to the proposed compliance order or proposed civil penalty amount. Refer to 49 C.F.R. § 190.225 for assessment considerations upon which civil penalties are based. A respondent's failure to specify an issue may result in waiver of the right to raise that issue at the hearing. The respondent's request must also indicate whether or not respondent will be represented by counsel at the hearing. Failure to request a hearing in writing within 30 days of receipt of a Notice waives the right to a hearing. In addition, if the amount of the proposed civil penalty or the proposed corrective action is less than \$10,000, the hearing will be held by telephone, unless the respondent submits a written request for an in-person hearing. Complete hearing procedures can be found at 49 C.F.R. § 190.211.

IV. **Extensions of Time**

An extension of time to prepare an appropriate response to a Notice may be granted, at the agency's discretion, following submittal of a written request to the Regional Director. The request must indicate the amount of time needed and the reasons for the extension. The request must be submitted within 30 days of receipt of the Notice.

V. **Freedom of Information Act**

Any material prepared by PHMSA, including the violation report, the Notice, and any order issued in this case, and any material provided to PHMSA by the respondent, may be considered public information and subject to disclosure under the Freedom of Information Act (FOIA). If the information you provide is security sensitive, privileged, confidential or may cause your company competitive disadvantages, please clearly identify the material and provide justification why the documents, or portions of a document, should not be released under FOIA. If we receive a request for your material, we will notify you if PHMSA, after reviewing the materials and your provided justification, determines that withholding the materials does not meet any exemption provided under the FOIA. You may appeal the agency's decision to release material under the FOIA at that time. Your appeal will stay the release of those materials until a final decision is made.

VI. **Small Business Regulatory Enforcement Fairness Act Information**

The Small Business and Agricultural Regulatory Enforcement Ombudsman and 10 Regional Fairness Boards were established to receive comments from small businesses about federal agency enforcement actions. The Ombudsman will annually evaluate the enforcement activities and rate each agency's responsiveness to small business. If you wish to comment on the enforcement actions of the Pipeline and Hazardous Materials Safety Administration, call 1-888-REG-FAIR (1-888-734-3247) or go to http://www.sba.gov/ombudsman/dsp_faq.html.
