Kansas City, MO 64106-2641

Re: CPF 3-2010-5004M

Dear Sir,

Wolverine Pipe Line Company (Wolverine) has received the subject Notice of Amendment dated February 2, 2010. Wolverine appreciates receiving confirmation that our earlier proposed amendments to the applicable manuals have resolved PHMSA's concerns relating to PHMSA's October 22-26, 2007 standard unit inspection. Wolverine also appreciates PHMSA's efforts to monitor and improve Wolverine's compliance with applicable laws, rules and regulations. Finally, I want to personally assure you that Wolverine and PHMSA share a common goal of safe and flawless operations that are in full compliance with the laws, rules and regulations applicable to our operations.

Respectfully,

A handwritten signature in black ink, appearing to read 'J. Gurrola', with a long horizontal flourish extending to the right.

John Gurrola
