Re: CPF 3-2013-0001

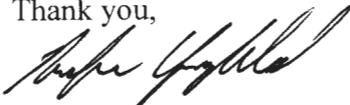

Dear Mr. Barnett,

The enclosed material is in response to your department's Proposed Compliance Order as a result of inspections at our propane distribution facilities performed in Green Bay, WI on September 5th, 2012.

We have provided updated Atmospheric Corrosion Inspection documentation and photos of the repairs performed.

Additionally, you asked for improvement costs associated with fulfilling this compliance order. Those estimated costs, including labor and materials were \$3000.00.

Thank you,

Rufus Youngblood
