Re: CPF 3-2013-1008M

Dear Mr. Backes:

On September 17, 2012, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code inspected DCP Midstream LLC's (DCP's) procedures for Public Awareness Program Effectiveness in Denver, CO. As a result of the inspection, DCP was issued a Notice of Amendment on June 18, 2013, which proposed amendment of your procedures.

DCP submitted its amended procedures on July 17, 2013. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

A handwritten signature in blue ink that reads "Allan C. Beshore".
