Dear Mr. Loving:

On December 5-8, 2011, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected the operation and maintenance procedures for your Integrity Management Program at your offices in McPherson, Kansas. As a result of the inspection, Jayhawk Pipeline (Jayhawk) was issued a Notice of Amendment on April 5, 2013, which proposed amendment of your procedures.

Jayhawk submitted its response on May 3, 2013, indicating that the procedures would be amended. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Linda Daugherty
Director, Central Region
Pipeline and Hazardous Materials Safety Administration
