Dear Mr. Pearson:

On September 13-15, 2011, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Magellan Pipeline Company, LP's (Magellan's) Public Awareness Program. As a result of the inspection, PHMSA issued a Notice of Amendment to Magellan on July 24, 2013, which proposed amendment of your procedures.

Magellan Pipeline Company, LP submitted its amended procedures on August 23, 2013. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in the Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

for Linda Daugherty
Director, Central Region
Pipeline and Hazardous Materials Safety Administration
