Chairman of the Board, President and Chief Executive Officer
Magellan Midstream Partners, LP
One Williams Center, MD 27
P.O. Box 22186
Tulsa, Oklahoma 74172

RE: CPF 3-2016-5009H

Dear Mr. Mears:

On October 21, 2016, the Pipeline and Hazardous Materials Safety Administration (PHMSA) issued to Magellan Ammonia Pipeline, LP (Magellan), a subsidiary of Magellan Midstream Partners, LP a Corrective Action Order (Order) in the above-referenced case. This Order included a requirement to take corrective actions on Magellan's 8-inch anhydrous ammonia pipeline operating from the Valley (NE) trap site at MP 223.61 to the Missouri River trap site at MP 272.05. Based on our review of the documentation provided, it has been determined that Magellan has complied with the terms of this Order. Accordingly, this case is now closed and no further action is contemplated with respect to the matters involved in this case.

Magellan has also reportedly abandoned the pipeline subject to the Order in July 2020 following the completion of the corrective actions. Magellan is reminded of its obligations under 49 CFR §195.402(c)(10) for abandoning pipeline facilities. Please contact me or a member of my staff with any questions you may have. Thank you for your cooperation in this matter.

Sincerely,

Allan C. Beshore
Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration

cc. Jason Smith, VP Asset Integrity, jason.smith@magellanlp.com
Mark Materna, Director Pipeline Integrity, mark.materna@magellanlp.com
