Dear Mr. Paul:

On May 13-16, 2019, representatives of the Michigan Public Service Commission (MIPSC) acting as an interstate agent for the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected DTE Gas Company's (DTE) procedures for operation and maintenance and integrity management at the Milford Compressor Station near Milford, MI.

As a result of the inspection, DTE Gas Company was issued a Notice of Amendment on January 27, 2020, which proposed amendment of your procedures. On February 26, 2020 and April 30, 2020, DTE Gas Company submitted the amended procedures. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Allan C. Beshore
Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration
