Re: CPF 3-2020-1006M

Dear Mr. Ramsey:

On March 19-21, 2019, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Energy Transfer's Panhandle Eastern Pipeline (PEPL) procedures for Public Awareness in Houston, TX. As a result of the inspection PEPL was issued a Notice of Amendment on September 28, 2020, which proposed amendment of your procedures.

PEPL submitted its amended procedure on November 10, 2020. My staff reviewed the amended procedure, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Gregory A. Ochs
Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration
