Re: CPF 3-2020-5013M

Dear Mr. Mears:

On January 28, 2019 through February 1, 2019, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Magellan Midstream Partners L.P. procedures in Tulsa, Oklahoma. As a result of the inspection, Magellan Midstream Partners L.P. was issued a Notice of Amendment on November 6, 2020, which proposed amendment of your procedures.

Magellan Midstream Partners L.P. submitted its amended procedures on December 4, 2020. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Gregory Ochs
Director, Central Region
Pipeline and Hazardous Materials Safety Administration
