Wichita, KS 67220

Re: CPF 3-2021-031-NOA

Dear Mr. Ramsey:

From November 28, 2017, through September 7, 2018, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), and the Minnesota Office of Pipeline Safety (MNOPS) pursuant to Chapter 601 of 49 United States Code inspected Flint Hills Resources, LC's (FHR) procedures for its Minnesota and Southern Crude system and Northern Operations Group (NOG) subject to 49 CFR Part 195. As a result of the inspection, FHR was issued a Notice of Amendment on April 23, 2021, which proposed amendment of your procedures.

FHR submitted its amended procedures on May 20, 2021. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Gregory A. Ochs
Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration
