Mr. Gregory Alan Ochs  
Director, Central Region, OPS  
Pipeline and Hazardous Materials Safety Administration  
U.S. Department of Transportation  
901 Locust Street  
Kansas City, MO 64106

**Re: *Response to CPF 3-2002-021-NOA (August 1, 2022)***  
***Audit Dates: April 27-30, 2021***

Dear Director Ochs:

This responds to the above-referenced Notice of Amendment, which required Continental Resources to amend its procedure for hydrotests to comply with the requirements of 49 C.F.R. § 195.304. Continental is not contesting the Notice.

Continental has amended its procedure to comply with § 195.304 and also obtained a hydrotest in May 2022 that complies with those requirements. Continental's amended procedure and the May 2022 Hydrostatic Test Report are attached to this response. Further hydrostatic testing will be conducted in accordance with the amended procedure.

Very truly yours,

Brooks A. Richardson  
Vice President & Deputy General Counsel  
Continental Resources, Inc.
