RE: Rio Grande Pipeline
CPF 4-2010-5007
Enterprise Products Operating LLC

Dear Mr. Seeley,

Enterprise Products Operating LLC (“Enterprise”) is in receipt of your February 26, 2010 letter to Holly Energy Partners (HEP) regarding the Notice of Probable Violation, Proposed Civil Penalty and Proposed Compliance Order, CPF 4-2010-5007, for the Rio Grande Pipeline System inspection on November 3 through November 7, 2008. As you are aware, on December 1, 2009, HEP’s 70% ownership and operatorship of the Rio Grande Pipeline System has been transferred to Enterprise. Enterprise, as the current operator of record for the Rio Grande Pipeline System, intends to quickly respond to the identified deficiencies.

The Notice of Probable Violation identified thirteen (13) locations with cathodic protection potential measurements that did not meet the -0.850 V corrosion criteria. Enterprise has resurveyed these specific locations and as of April 8, 2010, nine (9) of the original thirteen (13) locations continue to exhibit a potential measurement that does not meet the -0.850 V corrosion criteria. It appears that four (4) sites from the resurvey now indicate and meet the -0.850 V corrosion criteria, and were corrected with electrical bonds to nearby third party cathodic protection systems.

Based upon the aforementioned field discoveries, Enterprise has initiated corrective measures specifically designed to target the identified potential measurements that do not meet the -0.850 V corrosion criteria. Corrective action is scheduled to begin on June 6, 2010, with an anticipated completion date on or before September 1, 2010.

In addition, I am hereby requesting that Enterprise be copied on all future correspondence in regards to the noted Notice of Probable Violation (including the Final Order).

If you have any questions or wish to discuss this matter further, please contact Kyle L. Costlow, Manager, Corrosion Prevention at 713-381-8769 or kcostlow@eprod.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Terry Hurlburt", is written over a horizontal line. The signature is stylized and somewhat cursive.

Terry Hurlburt
Sr. Vice President, Operations
