Dear Mr. Amundsen:

On September 20-23 and December 7, 2010, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Sea Robin Pipeline Co. procedures for the offshore natural gas transmission pipeline system, Unit ID 1874- Sea Robin Transmission in Erath, LA. As a result of the inspection, Sea Robin Pipeline Co. was issued a Notice of Amendment on March 21, 2011, which proposed amendment of your procedures.

Sea Robin submitted its amended procedures on April 22, 2011. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

A handwritten signature in blue ink, appearing to read 'R. M. Seeley'.

Director, Southwest Region
