Dear Mr. Smith:

On March 25, 2011, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Shell Pipeline Co., L.P. (Shell) procedures in Houston, TX. As a result of the inspection, Shell was issued a Notice of Amendment on August 19, 2011, which proposed amendments to your procedures.

Shell submitted its amended procedures on May 19, 2011. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R. M. Seeley
Director, Southwest region
Pipeline and Hazardous Materials Safety Administration
