

ELECTRONIC MAIL - RETURN RECEIPT REQUESTED

January 12, 2022

Greg McIlwain
Senior Vice President, Operations
Energy Transfer Company
1300 Main Street
Houston, Texas 77002

CPF 4-2012-5019H

Dear Mr. McIlwain:

On May 8, 2012, the Pipeline and Hazardous Materials Safety Administration (PHMSA) issued to Exxon Pipeline Company, LP (EMPCO) a Corrective Action Order (CAO) following a failure that occurred on April 28, 2012. The CAO required EMPCO to develop a restart plan, effect a pressure restriction on the affected segment, complete mechanical and metallurgical testing and failure analysis, develop an integrity verification and remediation plan for the pipeline system, implement mitigative actions necessary for the safe operation of the pipeline, and submit quarterly reports with all available data and results of testing and progress of the repairs or other remedial actions being undertaken. PHMSA was notified on April 28, 2017, that Permian Express Partners (PEP) acquired the asset from EMPCO with an effective date February 1, 2017.

EMPCO/PEP has completed all requirements of the CAO. This letter is to inform you that no further action is contemplated with respect to the matters involved in this case, and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary L. McDaniel, P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
