Mr. R.M. Seeley
Director, Southwest Region
Pipeline and Hazardous
Materials Safety Administration
8701 South Gessner, Suite 1110
Houston, TX 77074

Dear Mr. Seeley:

Thank you for your letter dated August 26, 2014, (referencing CPF 4-2014-1008M) and your notice of amendment dated the same date (referencing CPF 4-2014-1009M) in which your office identified four apparent inadequacies in our maintenance and management integrity plan. We very much appreciate your office's thoroughness, cooperation, and professionalism in the inspection and identification of improvement areas. Pipeline safety excellence is of paramount importance to us and your inspection will go a long way towards achieving that objective. Please know that we are diligently working towards corrective actions for each of the identified areas of improvement and anticipate completing these or a plan in place by Oct 31, 2014.

As you state, we have provided revised procedures throughout the inspection and your office deemed these adequate to close the instant inspection. As such, no additional correspondence or response is required from GP on this matter, which was confirmed in discussions with Juan Mendoza on September 4, 2014. However, if you have any questions or concerns, please do not hesitate to contact me at your convenience.

Thank you again for assisting Georgia-Pacific in this instance.

Sincerely,

A handwritten signature in black ink that reads 'Gary Kaiser'.

Gary W. Kaiser
