Dear Mr. Bergstrom:

From June 16-23, 2014, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected your procedures and records for Control Room Management Program in Houston, TX. As a result of the inspection, American Midstream was issued a Notice of Amendment on April 20, 2015, which proposed amendment of your procedures.

American Midstream submitted the requested procedural modification on June 26, 2015. My staff reviewed the amended procedure, and the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R. M. Seeley
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
