Pipeline and Hazardous Materials Safety Administration
ATTN: Rod Seeley, Director – Southwest Region
8701 S. Gessner, Suite 630
Houston, TX 77074

**RE: CPF 4-2016-5004M
NOTICE OF AMENDMENT**

Dear Mr. Seeley:

I am writing to advise you that Western Refining Pipeline, LLC (“Western”) has revised its Operations and Maintenance Manual (“O&M Manual”) to address the inadequacies identified in the above-referenced Notice of Amendment. Specifically, Western has added specific procedures to its O&M Manual for creating purge and fill plans and detailing the minimum required components for such a plan. A copy of the portion of Western’s O&M Manual amended to add line fill procedures is attached hereto as Exhibit A. Western is in the process of training pipeline personnel regarding these new procedures in the O&M Manual. At this time, we anticipate that training will be complete by the end of April 2016.

Please feel free to contact me at 602.286.1559 should you have any questions. Thank you.

Sincerely,

WESTERN REFINING
