Dear Mr. Odum:

On September 15 – 16, 2015, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of the Lake Charles LNG, LLC (Lake Charles) procedures in Lake Charles, LA. As a result of the inspection, Lake Charles was issued a Notice of Amendment on February 21, 2017. Lake Charles responded by letter on March 22, 2017, stating that the procedures revisions identified during the inspection had been addressed. My staff reviewed the amended procedures and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary. L. McDaniel, P.E  
Director, Southwest Region  
Pipeline and Hazardous Materials Safety Administration
