U.S. Department of Transportation  
Terri J. Binns  
Acting Director, Southwest Region  
Pipeline and Hazardous Materials Safety Administration  
8701 South Gessner, Suite 630  
Houston, Texas 77074

Subject: RE: Notice Of Amendment - CPF 4-2017-7002M (OPID-39286)

Dear Ms. Binns,

A representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) conducted an onsite pipeline safety inspection of Energy XXI USA, Inc. (EXXI USA) procedures from February 23, 2016 through April 14, 2016 for its crude oil operations in the Gulf of Mexico and Grand Isle, Louisiana areas.

Pursuant to the PHMSA referenced Notice of Amendment (NOA) listed above, dated May 16, 2017, this letter serves as EXXI USA's formal response to that Notice of Amendment and EXXI USA is requesting a 90 day extension from date of this letter to develop its answers, update the procedures and forms as needed in the Hazardous Liquids Manual and to submit copies of the amended procedures to the Regional Director upon completion. Upon completion, EXXI USA will also submit the cost of the improvements associated with fulfilling this NOA.

Please be assured that Energy XXI USA, Inc. shares with PHMSA a commitment to safely operate its pipeline assets. It is our desire that both parties work cooperatively to assure this common objective.

In accordance with that commitment, I would like to inform PHMSA that Energy XXI USA, Inc. is no longer a viable entity effective December 31, 2016. All assets associated with EXXI USA have been transferred internally to EXXI Pipeline LLC Inc. on said date and are now managed and operated under EXXI Pipeline LLC Inc. (OPID-32532).

Sincerely,

Wesley Stout

Vice President Production
