Dear Mr. Cassulo:

Between May 16 to July 10, 2017, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Whitecap Pipeline Company L.L.C's (Whitecap) operations and maintenance procedures in Houston, Texas. As a result of the inspection, Whitecap was issued a Notice of Amendment on October 19, 2017. This Notice proposed amendment of your procedure to assure safe operation of your pipeline facility.

Whitecap submitted its amended procedure on April 23, 2018, via email. My staff reviewed the amended procedure, and it appears that the inadequacy outlined in this Notice of Amendment has been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

  
Mary E. McDaniel, P.E.  
Director, Southwest Region  
Pipeline and Hazardous Materials Safety Administration
