Houston, Texas 77074

Subject: RE: Notice Of Amendment - CPF 4-2017-9003M (OPID-32532)

Dear Ms. Binns,

A representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) conducted an onsite pipeline safety inspection of Energy XXI Pipeline, LLC (Energy XXI) procedures from February 23, 2016 through April 14, 2016 for its crude oil and gas pipeline operations in the Gulf of Mexico and Grand Isle, Louisiana areas.

Pursuant to the PHMSA referenced Notice of Amendment (NOA) listed above, dated May 16, 2017, this letter serves as Energy XXI's formal response to that Notice of Amendment and Energy XXI is requesting a 90 day extension from date of this letter to develop its answers, update the procedures and forms as needed in both the Hazardous Liquids and Natural Gas Operations, Maintenance and Emergency Manuals and to submit copies of the amended procedures to the Regional Director upon completion. Upon completion, Energy XXI will also submit the cost of the improvements associated with fulfilling this NOA.

Please be assured that Energy XXI Pipeline, LLC shares with PHMSA a commitment to safely operate its' pipeline assets. It is our desire that both parties work cooperatively to assure this common objective.

Sincerely,

Wesley Stout
