Ref: CPF 4-2018-1010

Dear Ms. McDaniel:

On October 9, 2018, PAA Natural Gas Storage, LLC (PNGS) received a Notice of Probable Violation (NOPV) and Proposed Civil Penalty letter from you detailing the results of an inspection by your office of PNGS's Pine Prairie Energy Center pipeline system. After reviewing and discussing the overall results, PNGS has decided not to contest any of the alleged violations and will pay the assessed penalty fees.

PNGS as of 10/31/18 electronically transferred the sum of \$82,300 as directed by the Instructions for Electronic Fund Transfers provided in your letter.

We trust that this letter and payment of the penalty fees will provide the necessary information needed for closure of the NOPV.

Sincerely,

William Dean Gore, Jr.,  
Vice President, Environmental & Regulatory Compliance
