Dear Mr. Buchler:

From September 17-21, 2018, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Tennessee Gas Pipeline Company's (TGP) procedures for Control Room Management in Houston, Texas. As a result of the inspection, TGP was issued a Notice of Amendment on May 14, 2019, which proposed amendment of your procedures.

TGP submitted its amended procedures on August 15, 2019. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary L. McDaniel, P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
